provided in the left-hand menu, but unfortunately there's no support for other formats. There's also Collection Creator - a handy tool that lets you collate several pages, organize them, and export them together (again, in PDF format). It's a nice feature that enables you to customize your reading material, but it's a bit of a hassle, and is really designed for readers who want printouts. The easiest way to read Wikibooks is simply to open them in your web browser.

Organization (RBO) Database is a searchable database that provides detailed institutional design data for more than 120 RBOs in more than 110 internationally shared watercourses. It was created by Dr. Susanne Schmeier as a part of her PhD research. The database highlights the commonalities and differences across RBOs in the way they are set up and in the functions they fulfill in governing international watercourses.
