Racecar Engineering goes back to basics to look at the function of diffusers. Given the current controversy over the design of the Brawn GP, Toyota and Williams diffusers Racecar Engineering decided it was time to return to the basics of racecar aerodynamics. This will allow us to better understand exactly why their designs are more effective.

This voltage drop principle leads to another important law in basic electrical engineering, Kirchoff's Voltage Law (KVL). This law states that the algebraic sum of the voltages in a closed loop is always equal to zero. If we only knew the supply potential and the voltage drop of R1, we could use KVL to find the other voltage drop.
