Beyond Metropolis The Planning And

Beyond Metropolis studies planning and governance in the regions surrounding the twelve cities in Asia with populations over ten million: Tokyo, Mumbai, Kolkata, Dhaka, Delhi, Shanghai, Jakarta, Osaka, Beijing, Karachi, Metro Manila, and Seoul. These regions are greater than cities plus suburbs: for almost all, development has sprawled into the surrounding countryside, enveloping villages, towns, and small and medium-sized cities, creating "extended metropolitan regions."

Instead of planning primarily for mobility, our cities should focus on the safety, health, and access of the people in them. Beyond Mobility is about prioritizing the needs and aspirations of people and the creation of great places. This is as important, if not more important, than expediting movement.

Circles of Sustainability is a method for understanding and assessing sustainability, and for managing projects directed towards socially sustainable outcomes. It is intended to handle 'seemingly intractable problems' such as outlined in sustainable development debates. The method is mostly used for cities and urban settlements.
