This DIY is going to be centered around handling the replacement of a valve cover gasket (and associated gaskets) on N51 and N52N engines. Unlike early N52 engines, which used a magnesium valve cover and had an external crankcase vent valve, the updated version features a plastic valve cover with an integrated PCV valve.

How To Replace The Valve Cover Gasket On A BMW N51/N52N ...
On the late model BMW "N" family 6-cylinder engines (N51, N52, N54, N55), we recommend 60,000 mile belt and pulley replacement, or sooner, if inspection shows ANY belt or pulley wear. Here's why: The N-series engines add a bit of urgency to the belt and pulley preventative replacement idea.
