Oracle® SOA Suite Best Practices Guide 10g Release 3 (10.1.3.3.0) E10971-01 December 2007

Best Practices Guide 10g Release 3 (10.1.3.3.0)

The BPEL Cookbook is an excellent practical guide to real-world SOA integration issues. It is not a "Learn BPEL" book, but rather the next step once you learn how to develop in BPEL. ... I would have also liked to see some usage tips for Enterprise Service Bus (ESB) and BPEL integration to real time application reporting through BAM.

BPEL Cookbook: Best Practices for SOA-based integration ...

The burden of interoperability is on the ESB. We will also learn the widely used work flow language BPEL (Business Process Execution Language). Interestingly, a business process itself can be plugged to an ESB as a service. This (look for "Basic ESB Patterns") is a good introduction to the concepts of ESB. Do not worry about the IBM specific details.

Working with BPEL and Enterprise Service Bus

You could use a mediation flow in an ESB to call the services. Mediation flows are committed as a transaction, or rolled back. You could use a WS-BPEL micro-flow to call the three services, also providing transactionality. In this, you could use both products as the solution.

BPEL or ESB: Which should you use? - IBM

23)What all errors can't be handled by a BPEL process?--Best Practices Guide 24)What is a throw activity?---Go to Developer's guide 25)Why do we use a JMS queue?What is the benefit of using it over a simple AQ queue?--maintain JTA transaction capability and to ensure one and only one message delivery.

Oracle SOA,OSB,BPEL,AIA Interview Questions with answers

Oracle Business Rules (Business Rules) and Oracle Adapters plug into the Service Infrastructure, a normalized transport infrastructure, make up the Enterprise Service Bus (ESB). With the addition of the Oracle BPEL Process Manager (BPEL) and Human Task service components, the suite forms a complete Business Process Management (BPM) platform.

Installing Oracle SOA Suite with the BEA WebLogic Server

Keep the number of activities in BPEL as minimal as possible; increasing the number of activities will decrease the performance of BPEL Engine Avoid declaring many global variables in a BPEL process, instead use scope or local variables.

Oracle SOA Suite 11g - Best Practices Snapshot By ...

Finally. The book had been talking about BPEL (Business Process Execution Language) on-and-off and now this chapter gave me a heavy dose. Good job. Chapter 6 was my favorite chapter by far. ESB is an area of interest for me, and to have it explained and examined in the context of SOA was eye opening.
