Another way to go is to take the gene model (from a gene page), paste it into an ApE window and then select all, make a new feature (Feature menu), and in the edit feature window that appears press the "upper case only" button.

ApE- A plasmid Editor

"From Man to Ape is first and foremost a fascinating read and a mine of details about the history of Argentina and the development of scientific (and scientific) thinking there, but it is also much more. It tracks the reception of Darwinian theory in an area 'peripheral' to Western Europe, and in so doing gives us in essence a Darwinian history of Darwinism, demonstrating how the tropes and representations that are the idioms of scientific knowledge were molded to the particular ...

From Man to Ape: Darwinism in Argentina, 1870-1920, Novoa ...

Knowing from Scripture that God didn't create any ape-men, there are only three ways for the evolutionist to create one: 1) Combining Men and Apes, 2) Making Man out of Apes, and 3) Making Apes out of Man. Men and Apes Homology Homology refers to features that are similar among different animals, especially bones or DNA.

Ape-Man | Answers in Genesis

Ape definition, any of a group of anthropoid primates characterized by long arms, a broad chest, and the absence of a tail, comprising the family Pongidae (great ape), which includes the chimpanzee, gorilla, and orangutan, and the family Hylobatidae (lesser ape), which includes the gibbon and siamang. See more.

Ape | Definition of Ape at Dictionary.com
