Hi, I have a ktm, the vin number says it is a 525 sx, but it has, what I believe to be a 250cc engine fitted, how do I find out exactly what engine is fitted? The numbers are 1-771*020902 * Please if anyone can help, it would be appreciated.

How to read out which engine is in my KTM? | Adventure Rider

I was told it was an early 2000's model engine but after talking with the local KTM dealer today, he said it could only be 2009 -to 2011 ish, so I don't know what I have. Numbers stamped (looks factory) in the lower case are "8-830*17244*" I've searched all over the net and can only find vin number references.....any help would be much appreciated.

Identify KTM Engine - KTM ATV Forum

The stock engine was swapped out for another engine. My manual says it should be a four-speed but fortunately it's a six-speed. I just need to know what engine I have and what year it is. Mind you I have two engines. 2006 KTM 450 SX VIN: VBKMXN4306M314424 Engine Number (Currently Installed): 3-594*45701*
