Researchers have been studying the connection between culture and personality for a long time. In this video, I'm going to explain two spectrums that researchers have created to define cultures. The culture's place on these spectrums highly influences the personality traits and behaviors of the people in that culture.

Personality and Culture - Practical Psychology

The Culture and Personality movement was at the core of anthropology in the first half of the 20th century. It examined the interaction between psychological and cultural forces at work on the human experience. Culture and Personality was too divided to really be considered a "school of thought."

Culture and Personality - Anthropology

Culture, therefore, influences the manner we learn, live and behave. Because of this, many theorists believe that culture is an important shaper of our personality. One of the general assumptions asserting the effect of culture to personality is that people who are born and bred in the same culture share common personality traits.

Does culture affect our personality? - Individual Traits ...

The superego is the final aspect of personality to develop and contains all of the ideals, morals, and values imbued by our parents and culture. This part of personality attempts to make the ego behave according to these ideals. The ego must then moderate between the primal needs of the id, the idealistic standards of the superego and reality.

The Psychology of Personality Formation

Physical development involves growth and changes in the body and brain, the senses, motor skills, and health and wellness. Cognitive development involves learning, attention, memory, language, thinking, reasoning, and creativity. Psychosocial development involves emotions, personality, and social relationships.

Human Development | Lifespan Development

Human development involves all the individual's activities starting from birth, infancy, childhood, adolescence, through to adulthood. Therefore, human development and people's view of the world during all these stages of a person's life is influenced by people's exposure to various cultures in so many ways.
