thinking patterns that humans have used for thousands of years. It directly contradicts the principle of 'thinking outside the box' and uses 'thinking inside the box' as a guiding principle in order to prove that creativity is not the prerogative of only a few.

Systematic Inventive Thinking (SIT) - toolshero

Systematic Inventive Thinking (SIT) SIT is an innovation method that harnesses five thinking patterns that mankind has used for thousands of years. SIT has been expanded to cover a wide range of innovation-related phenomena in a variety of contexts. By using SIT, companies have produced breakthrough results in many types of situations. Surprisingly, the majority of new, inventive, and successful products result from just five patterns: subtraction, division, multiplication, task unification ...

Systematic Inventive Thinking

SIT - Systematic Inventive Thinking. SIT has unlocked the DNA of innovation - and SIT is part the Bold Group's DNA. In 2002, Ralph J. Rettler read about Prof. Jacob Goldenberg, the developer of the SIT methodology. Ralph was fascinated by the fact that successful innovative ideas can be explained by only a few patterns, and that these were eventually translated into a set of powerful tools to help companies innovate.
