The Fujifilm X-T10 is a smaller and lighter version of the X-T1. It too features a 16MP X-Trans CMOS sensor and support for X-mount lenses and adapters. One standout feature is an improved hybrid autofocus system that layers 77 phase detection points on top of its sensor, which allows for superior AF tracking than contrast detection alone.

Fujifilm X-T10 Overview: Digital Photography Review

The Fujifilm X-T10 will be available in either black or silver in a variety of different kit options. The silver, by the way, is a brand new coating that is slightly lighter in color than the 'titanium' coating of the X-T1. The body only is set at \$800, kitted with a Fujinon 16-50mm/f3.5-5.6 OIS it will cost \$899. With the nicer Fujinon 18-55mm ...

The Fujifilm X-T100 is the company's least expensive X-series camera to include an electronic viewfinder. It shares most of its guts with the entry-level X-A5, including its hybrid AF system and 24MP sensor and, unfortunately, its 4K/15p video mode.

Fujifilm X-T100 review: Digital Photography Review

The Fujifilm X-T10 features a new AF system which offers the conventional 49-point Single Point mode for high speed and precision. As well, there are new Zone and Wide/Tracking modes that track subject movement across a larger 77-point area, substantially improving the camera's ability to capture moving subjects.
