A font can be applied in all different sizes and can be used to create visual hierarchy. Visual hierarchy is an important function of the legibility of text; consider a newspaper and its layout of the headline to amplify a focal message, subhead to summarize the piece, and paragraph copy to convey the message in full.

Typography plays a big role in graphic design and can be one of the hardest things to get right. My aim here is to introduce some of the basics and the most common areas of typography that will be important in your design work.

A 20 Minute Intro to Typography Basics

Enric Jardi writes in Twenty-Two Tips on Typography that, "... you must not use both indentation and a line break at the same time; that is redundant." Here's some quick CSS for indenting only the second and subsequent paragraphs in a body of text:
