Wikipedia

Description Donald Winnicott (1896-1971) was a London paediatrician who studied psychoanalysis with Melanie Klein. Although accepting Klein, he viewed the key aspect of healthy development as rooted in relationships and micro-interactions with other people, thus taking particular interest in Object Relations Theory.

Donald Winnicott - Changing minds

Winnicott saw the true self as rooted from early infancy in the experience of being alive, including blood pumping and lungs breathing – what Winnicott called simply being. Out of this, the baby creates the experience of a sense of reality, a sense that life is worth living.
